INCOME & EXPENSE QUESTIONNAIRE

It is my responsibility as your Lee County Property Appraiser to annually determine the market value of all property in our county. In order to accurately appraise income-driven properties, this office requests information to help us identify current rental conditions. All information that you submit in response to this questionnaire will be held in strict confidence, as mandated by Florida Statute 195.027.

The information generated by this survey will be used to develop **TYPICAL** income and operating expense parameters for the various types of properties reporting. If you provide verifiable year-end 2009 income and expense data, it will be one of the many factors considered in preparing your 2010 assessment. If you fail to respond, however, the Lee County Property Appraiser will be required to assess your property utilizing market parameters from similar properties responding to this survey.

Failure to submit the requested income data by April 30th will preclude the Lee County Property Appraiser from considering the income data for the current tax year and it will be objected to if offered in a subsequent administrative or judicial proceeding.

If you would like assistance in completing the *income questionnaire*, you may contact *JUDY FARRINGTON* at (239) 533-6201 or e-mail FarringtonJ@Leepa.org of the Commercial Department.

Thank you in advance for your anticipated cooperation.

Respectfully requested,

A handwritten signature in black ink that reads "K. M. Wilkinson".

Kenneth M. Wilkinson, C.F.A.
Lee County Property Appraiser
